

FLORIDA DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES COMMISSIONER WILTON SIMPSON

Hemp Transportation Information

All hemp, including live plants, propagative parts, unprocessed plant material, and processed plant material, must be transported in a fully enclosed vehicle or container.

If you are transporting hemp into or within the state of Florida, you must stop and **submit for inspection by presenting the following paperwork** at an agricultural inspection station:

- Bill of lading or other documentation with the following details:
 - Name and address of shipper or consignor
 - Name and physical address of receiver or consignee
 - Description of plants or plant products in shipment
 - Place and state of origin
 - Ultimate destination of shipment if different than receiver or consignee
- Copy of origin state or territory Hemp Cultivation License Number

Additional requirements for live hemp plants or propagative parts transported into the state:

- Original phytosanitary certificate from state of origin
- A valid certificate of inspection. This can be a nursery stamp issued by the state of origin.
- Live plants or propagative parts must be maintained and shipped in soilless or sterile growing media or sterile environment.

Additional requirements for unprocessed hemp plant material transported into the state:

- Certificate of Analysis (COA) showing the Total THC Delta 9. Formula used in Florida is $THCA \times .8777 + THC \text{ delta } 9 = \text{total THC Delta } 9$
- Unprocessed hemp plant material must be transported frozen or dried.

Additional requirements for processed hemp plant material transported into the state:

- Certificate of Analysis (COA) showing the Total THC Delta 9. Formula used in Florida is $THCA \times .8777 + THC \text{ delta } 9 = \text{total THC Delta } 9$
- Processed hemp plant material must be rendered nonviable.
